# Divisibility Rules

## Divisible by 10

Does it end in 0?

#### Divisible by 2

Is it even?

#### Divisible by 3

Do the digits add to a multiple of 3?

### Divisible by 5

Does it end in 0 or 5?

## Divisible by 7

Subtract double the last digit from the remaining digits. Is the result divisible by 7?

## Divisible by 11

Add up every other digit. Then add up the rest of the digits. Subtract the two sums. Is the difference divisible by 11?
